

# *Sample Tech Requirements*

*(Subject to Change)*

## **#1 – Sound:**

Venue Provides:

- Provide a wireless headset microphone with fresh batteries
- Provide a Direct Input Box (DI Box) on stage for iPod to be used on stage by Josh.
- Provide 1/8 inch jack and cords to patch into DI box
- Provide gaff tape to secure iPod to stage table and secure line across the floor
- Provide sound monitoring during the show

Jumpstart 3 Provides:

- iPod with playlist
- Jeff has all necessary cords and adapters if needed (50 foot 1/8 inch cable, 1/4 inch to 1/8 adapter, 1/8 to 1/4 inch adapter, 1/8 inch to RCA, etc)

## **#2 – Opening Video and Graphic**

Venue:

- Provide a projector, computer and sound to play countdown video and/or display graphic

## **#3 – Day of Show**

Sound Check:

- Test iPod, Mic and Cartoons 45-60 min prior to the start of the show

Order of Service:

1. Display “Jumpstart” graphic
2. Start the countdown video 22 minutes before the official start time of the show (Example: Show starts at 6:30pm. Start video at 6:08pm)
3. Return screen to display “Jumpstart” graphic for remainder of show
4. Show begins (Jeff starts iPod with background music and microphone is LIVE)
